

TENNIS IN CYPRUS

Tennis has become an increasingly popular sport in Cyprus over the last two years following the success of local star Marcos Baghdatis on the international circuit. The island's mild climate means the game can be played almost year-round.

Tennis courts are found in all towns as well as in many hotels and hotel apartment complexes. Most of these tennis courts are all weather and equipped with flood lighting.

Various tournaments are held in Cyprus annually such as the Cyprus Seniors Cup, TF Junior Circuit "Aphrodite Cup" and the Cyprus National Champion ship.
